

ODEW EMIS-ITC Call – 6/08/2026

Notes provided by Gretchen Martin (ACCESS) and BreAnn Blubaugh (LACA)

FY26 Collection Request – Most of FY26 reporting is almost complete. There are about six weeks left until the collections start to close. ODEW will begin sending out follow-up emails for collections closing in July for districts that have not submitted the collection at all, or have not submitted for a while.

Data Collector & Data Comparison – A Hotfix was released last week for the Data Collector to fix several issues found since enabling Data Comparison. It is important for ITCs to get this fix installed by Monday, June 15th. During the week of June 15th, ODEW will be turning on Data Comparison for the remaining record types, so it is important to have this Hotfix installed.

It is not a full installation; it is a swap of the .jar file that requires a short outage. If ITCs had already installed the Hotfix before Alex's email on Saturday, those ITCs are still good. However, an additional fix was released to address the issue described in Alex's email; it is not required to install the additional fix sent out on Saturday, but can be done if desired.

Q: Does the hotfix resolve the issue with students who were originally reported with an incorrect SSID on the FS record, and update on the next FS record where the FS record is being reported with an FM record?

A: Yes

SB19 – The House had a meeting and released some amendments around SB19; this bill has a number of reforms in it around Math education and diagnostics. It also included a provision requiring the entire state to use the same SIS, which was removed. The bill now has a provision regarding ODEW, in consultation with The Management Council and ITCs, to publish standards that each SIS has to meet in order for districts to be able to use it. This bill has not been passed as of this time; ODEW will share more information as it becomes available.

Upcoming Call Schedule

Wednesday, June 10th – EMIS Change Call

Thursday, June 11th – Vendor Call

Monday, June 22nd – ODEW EMIS-ITC Call

Manual guidance prevails if there is a conflict between the information shared on this call and the EMIS Manual.
