## **CPS ePayable Overview**

CPS is a market leader providing electronic credit card payments to client vendors through the AP disbursement process. CPS offers a unique solution that focuses on increasing back office efficiencies and increasing vendor participation while enhancing the rebate opportunities for the organization.

## **Client Benefits**

- Works Seamlessly with existing processes and technologies
- Earns significant rebates; Highest in the industry
- Reduce back office costs and check printing and mailing inefficiencies
- Enhances internal controls
- Implementation in less than 2 weeks (5-10 hours of total IT support required)
- No cost to clients (implementation and ongoing support)
- Big 4 approach and methodology deployed throughout implementation and post "Go-Live" support

## **Client Testimonials**

"CPS had us up and running 10 days after signing the contract. The first month rebate was \$6,000 and the second month was \$13,000."

- Treasurer, Louisiana Parish School District

"CPS Payment was great to work with. They converted close to 30% of our checks to electronic payments that brought a substantial rebate back to our school district."

- Treasurer, Ohio School District

"I told CPS that their payment system/program would need to integrate seamlessly with USAS. They assured me it would but I was still skeptical. I was extremely pleased when that promise came true. We worked with EDGE software and was able to set up a credit card payment system that not only integrates with USAS and Edge but integrates with our accounts payable process. I would highly recommend CPS Payment Services and their Virtual Credit Card Payment System."

- Treasurer/CFO Ohio School District
