

K-12 Cybersecurity Partnership

In a landscape where 80% of school IT professionals report ransomware attacks in the past year, as per a global survey conducted by Sophos, cybersecurity has become a critical concern. At Sondhi Solutions, we recognize the escalating threats facing educational institutions.

Our managed cybersecurity services are tailored to not only respond to these challenges but also collaborate seamlessly with your existing support structure, be it internal staff, a Managed Services Provider, or an Information Technology Consultant. We go beyond providing individual tools – we offer a comprehensive solution. Our proactive services are designed to address potential threats and concerns unique to your school district, ensuring the safety and security of both teachers and students in an ever-evolving digital landscape.

10,000
Times Faster

Sondhi Solutions is
10K times faster to
detect a breach

300
Times Faster

Sondhi Solutions is
300 times faster to
contain a breach

Security Coverage is Critical

A data breach now takes 212 days to initially detect and 75 days to contain once discovered. That's an average Lifecycle of 287 days. Companies with capabilities offered by Sondhi Solutions drastically decrease their likelihood of a breach. And if breached, the average time to detect is 32 minutes, with an average time to contain of 6 hours.

K-12 Cybersecurity Partnership

WHY MANAGED CYBERSECURITY

Empowered users

We do more than turn on a firewall. Our cybersecurity offering includes teacher and student education to prepare your first line of defense to identify threats and mitigate risk.

Cost savings

Our pricing structure is easy to understand and is typically more affordable than hiring on-site cybersecurity professionals.

Peace of mind

Trust us to fortify your reputation with proactive threat detection and rapid incident response, minimizing the impact of data breaches on your community's trust.

Reliable support

Our dedication to transparency and communication makes us one of the top cybersecurity companies around. When we enter a partnership, we see your success as ours.

K-12 Cybersecurity Partnership

OFFERING

Vulnerability scan, recommendations, and remediations

Explores machines for poor configurations, bad patches or other oversights that could compromise company data.

Endpoint detection and response

Allows our team to collect and analyze school district data in real time to recognize and prevent threat patterns. We can then automatically contain or eliminate risks and send alerts about suspicious activity.

Security information and event management

Allows our cybersecurity team to collect logs from devices and send out alerts when we detect abnormalities or malicious activity.

Email filtering

Proactively identifies and quarantines suspicious messages, protecting both students and staff from falling victim to cyber threats.

DNS filtering

Maintains a secure online environment for students and staff. It acts as a digital gatekeeper, preventing access to harmful or inappropriate content.

Dedicated cybersecurity team

Our team of cybersecurity experts, including CISSP, GCIA, SSCP, CompTIA, and Security+, monitor your network for potential threats. With 35+ years of combined field experience, we provide the expertise you need to protect your school district.

K-12 Cybersecurity Partnership

PRICING

Our cost-per-endpoint or user pricing model offers school districts the benefits of scalability, flexibility, and cost transparency. It enables you to align your IT service costs with school growth or contraction, ensuring a cost-effective solution that can be tailored to your specific needs.

If you choose our full service offering, we will provide a 10% discount, further enhancing the value and affordability of our services.

Offering	Price
Vulnerability scan, recommendations, and remediations	\$3.00 per endpoint
Endpoint detection and response	\$8 per endpoint monitored by our 24/7 Security Operations Center
Security information and event management	\$18.00 per user
Security awareness training and phishing simulation	\$3.00 per user
Email Filtering	\$5.00 per user
DNS Filtering	\$3.00 per endpoint

10% discount for full service package

Sondhi Solutions has provided excellent cybersecurity services to our team, proactively engaging our weaknesses and potential threats 24x7. The biggest advantage I see every day is they take care of cybersecurity in a way that allows our team to focus on our duties without interruption. We have the peace of mind knowing our network is being monitored by a qualified team of experts, keeping us safe.
