**Media
Sharing
Solution**

MAXIMIZE YOUR MEDIA

- Safely use media in classroom without giving access to YouTube.
- Ability for students to upload their media projects at school or home.
- Compatible with mobile devices.
- Upload video of teaching sessions for absent students.
- Share media from recent events and activities.
- Great resource for professional development, tutorials and video curriculum.
- Access media for marketing purposes.
- Compresses media for maximized storage and use across your network.

The screenshot displays the OnmediaSpot web application. At the top, there's a navigation bar with links: My Videos, My Audio, My PDFs, My Photos, My Collections, Featured Videos, Settings, and Logout. Below this is a main menu with tabs: Home, Videos, Audio, PDF's, Photos, and Collections. A search bar and an 'Upload' button are also present. The main content area features a video player titled 'Student Constructed Robot'. The video shows a yellow and black robot on a green and white striped surface. To the right of the video player, there's a metadata section: 'From: jimmills', 'Added: May 01, 2012', 'Duration: 01:09'. Below this, it states 'This robot was constructed and programmed by TM middle school students'. It also lists 'Category: 21st Century Skills' and 'Tags: Robots Tech Project-based 21st Century Skills'. There are fields for 'URL' and 'Embed'. Below the video player, there's a 'Rating' section with five stars and 'Views: 34'. At the bottom, there's a 'Commentary' section with a 'Text Comments (0)' dropdown and a 'Post a Text Comment' link. To the right of the commentary is a 'Statistics & Data' tab. At the very bottom, there's a 'Related Videos' section showing a thumbnail for 'Technology Forum - M...'.

Easily Upload, Categorize and Search

User friendly environment where you can share, organize and search all of your school media. Media is uploaded into customized categories and keywords added for searching.

Secure Environment

Administrators may be assigned to approve content prior to uploading. Determine who is able to view what content. Media can be viewed internally or an option is provided to also be viewed externally. Restrictions can be made on a per video basis.

Teacher, Student, and Parent Access to Media

Media can be accessed directly on the Onmedia website by using your school login credentials. In addition, you can embed media into your learning management system, school website or provide a link in an email.

- Where do you currently store and share your videos and photos?
- Are you able to share media with laptops, Ipads, android tablets, and smartphones?
