ProgressBook® 60-Day Kickstart DataMap

DATAMAP

DataMap is a data analytics and warehouse solution that helps educators make sense of student assessment data in order to improve instruction and enhance student learning. Districts receive everything they need to leverage their data and support achievement, including tools for managing Student Learning Objectives (SLOs) and Interventions.

The FREE 60-Day Kickstart will teach your district how to:

- Assign DataMap roles
- Search for information in DataMap
- Use the Student Roadmap to view student progress
- Load assessment data into DataMap
- Create and maintain interventions OR create student objectives
- View Graduation Points data in DataMap

Start Your DataMap 60-Day Kickstart Today!

ProgressBook®

6o-Day Kickstart
VirtualClassroom

VIRTUALCLASSROOM

VirtualClassroom is a modern e-learning management system (LMS) that makes it easy for districts to implement blended learning and flipped classrooms. Our LMS provides a streamlined experience for teachers, allowing them to create and manage online activities that engage students and deliver personalized learning.

The FREE 6o-Day Kickstart will teach your district how to:

- Create online courses
- Create online assignments
- Publish student resources
- Assign online activities
- Participate in online activities (for students)
- Grade online activities
- View and analyze online activity results
- Collaborate on a course
