4 CHOOSE YOUR NETWORK

Kajeet offers its Education Broadband service on all **four national wireless carrier networks**. We will assist you in determining which network provides the best coverage and speed in your area.

KAJEET K-12 DEFAULT FILTERS[4]

The Kajeet exclusive K-12 filtering system blocks all non-educational and inappropriate content so students can stay on-task and focused on school work. The Kajeet Sentinel® system updates over one million Internet sites per day. Kajeet blocks adult, inappropriate, and offensive content; non-education related streaming media; entertainment and social media sites; non-educational gaming, proxies, and other harmful content.

---

4. Kajeet default filters include: Specific filter groups for K-8 and 9-12; CIPA-compliant & education-only content filtering; blocked non-educational video and audio streaming, social media and gaming; blocked unrestricted YouTube®; time-of-day access from 6:00 am – 11:00 pm; and daily data consumption limits per line. Kajeet Complete Plan utilizes default filters , data caps, and policy controls. With Kajeet Custom Plan, default filters can be altered to fit your specific use case. Please note: alterations to Kajeet default filters may result in higher than anticipated data usage.

5. Bring Your Own Device: SIM Card included in one-time conversion fee.

6. SmartSpot protection requires a $25 deductible for each claim. Limit one claim per line of service. Not available for SmartBus.
