# BUILT FOR EDUCATORS TO CREATE IMPACT

TEACH HOW TO LEARN REMOTELY

Live Lecture was designed to be intuitive for professional educators enabling them to capitalize on their valuable time. Educators deserve an adaptable platform that fits their unique needs within the dynamic instructional landscape while staying COPPA and FERPA compliant. Effortlessly guide students through lessons and eliminate distractions by sharing and managing device screens.

Educator Screen

Student Screen

Group 1: Astronomy

Group 2: Math

$$ax^2+bx+c=0$$

$$x=\frac{-b\pm\sqrt{b^2-4ac}}{2a}$$

IT'S YOUR CLASS, YOUR WAY

To support the diverse learning styles and skill proficiencies of students in:

- Traditional Classrooms
- Hybrid Classrooms
- Virtual Classrooms

Educators can manage their classroom how they choose, by creating numerous breakout groups within one classroom with the ability to join at any time. This enables students to work together through shared screens and give students, who are unable to be physically present, the opportunity to participate and collaborate on in-class activities.

EXPLORE NEW CHANNELS OF LEARNING

Educators are ambitious, inventive, and dedicated. The ever-evolving learning environment has prompted educators to discover new ways to present valuable learning outcomes. From STEM courses to the Arts, AristotleK12 Audio & Visual capabilities empower educators to foster inspiration and create impact their way.

**IGNITE INNOVATION. EVEN FROM A DISTANCE.**

Receive alerts of off-task students to refocus them

AristotleK12 Audio & Visual capabilities provide an intuitive interface for educators to develop and design engaging content and manage their classrooms with complete visibility.

- Provide guidance through 1:1 check-ins with students throughout class
- Effortlessly eliminate online distractions and redirect student attention with automatic alerts
- Time is valuable, preserve instruction time by muting student microphones

- Seamless cross-platform integration between Windows and Chromebook devices
- Support Q&A opportunities during lectures between students and educaors, where educators can directly respond to student questions, or anonymously publish questions, and deliver answers to the enitre class

20 YEARS OF EDUCATIONAL EXPERIENCE

For over 20 years, Sergeant Laboratories has partnered with educators to develop software for the dynamic learning landscape and answer vital K12 technological questions. Our flagship product, AristotleK12, enables educators to take a proactive approach to instructional technology with Unified Digital Integration and has been widely adopted by school districts nationwide. We have developed an agile design model that allows us to adapt, correct, and swiftly respond to customer feedback. Our experience, superior support, and commitment to educators differentiate AristotleK12 as the bridge between traditional and modern modes of instruction.
