# CREATE PIVOTAL INSTRUCTIONAL MOMENTS IN BORDERLESS CLASSROOM

Enable Remote Proctoring

Create and sustain an immersive learning environment within a dynamic instructional landscape by enabling remote proctoring for traditional, hybrid, or virtual classrooms. Educators can:

- Confirm the Identity of Student Taking the Exam
- Lock Students into a Specific Website for the Duration of an Exam
- Validate Exam Credibility

## Leverage Productivity with G-Suite Automation

G-Suite Asset Automation enables users to efficiently modify accounts or devices within AristotleK12 and Google Admin simultaneously. Seamlessly:

- Create or Update Groups & OUs
- Create, Delete, or Reset Passwords
- Conduct Mass Adjustments or Deletions to Accounts & Devices
- Modify Device Meta Information

It's Your Class, Your Way

To support the diverse learning styles and skill proficiencies of students, educators are able to:

- Create Breakout Groups
- Share Educator Screen with the Entire Class, Groups, or Individual Students
- Host 1:1 Student & Educator Text Chat
- Send Mass Messages to all Students in Class
- Integrate with Google Classrooms and other SIS Platforms
- Ensure Student Safety with Automatic Security Protocols
    - Only Allow Screen Viewing During Class Hours
    - COPPA & FERPA Compliant

Apply Settings to Individuals or Groups
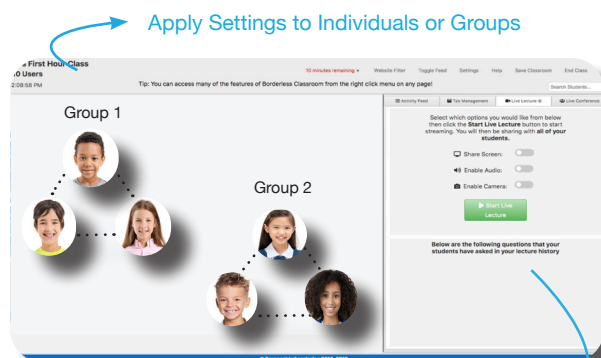

Record Video or Mute Student Microphones

Customizable Class Filtering

Technology should amplify instructional impact and adapt to the unique needs of educators and students. Educators can:

- Create Specific Rules to Filter by Groups, Grade Level, Indiviudal Students, and OUs Regardless of Location
- Limit Available Web Pages to Those Necessary for Class
- Allow Web Pages for Class that are Traditionally Blocked by the Filter
- Block Web Pages that Cause Distractions
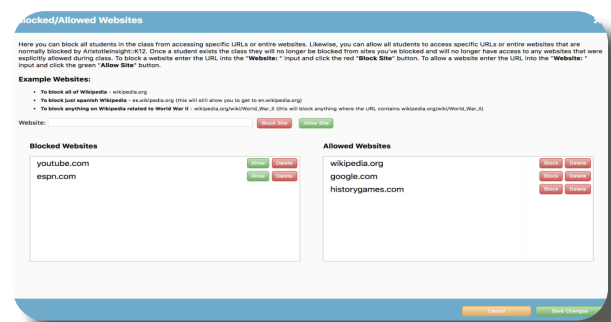

Educator Directed Browsing

Ensure that students stay on-task and capitalize on valuable instructional time. Educators can:

- Blank Student Screens for Lecturing
- Recieve Notifications of Off-Task Students
- Push Web Pages to the Entire Class, Groups, or Individual Students
- Broadcast Educator Screen to the Entire Class, Groups, or Individual Students
- Close Student Web Pages
- View Student Screens in Real-time
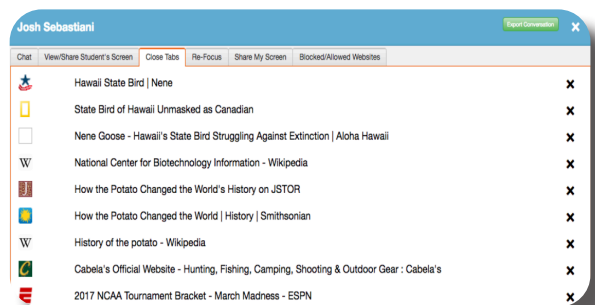

Protect What Matters

Student safety is of the utmost importance. Monitor, analyze, and recieve automatically generated reports to guarentee the well-being of students.

- Send Real-time Alerts of Unsafe or Inappropriate Activity to the Proper Staff
- View What a User was Doing Before, During, and After an Event Occurs
- Receive Notifications & Reports Detailing Student Hacking (DDoS, Key-logging, etc.) or Cheating Activity

Monitor Printer Activity

Identify and confirm that assets are being appropriately utilized by viewing:

- Printer Correlation to User Device
- History of Initialized Print Jobs
- Printer Utilization Totals
- Active Printer Aggregates

20 YEARS OF EDUCATIONAL EXPERIENCE

For over 20 years, Sergeant Laboratories has partnered with educators to develop software for the dynamic learning landscape and answer vital K12 technological questions. Our flagship product, AristotleK12, enables educators to take a proactive approach to instructional technology with Unified Digital Integration and has been widely adopted by school districts nationwide. We have developed an agile design model that allows us to adapt, correct, and swiftly respond to customer feedback. Our experience, superior support, and commitment to educators differentiate AristotleK12 as the bridge between traditional and modern modes of instruction.
