Securly, Inc.

In order to assist every Ohio school district with its mission of keeping students safe, the services listed below will be provided at an extremely discounted price from now through **July 1, 2024**

Pricing & Offer:

- **$1 per year/student** for Filter (any length of term)
- **$2 per year/student** for a package deal that includes Securly 24 and Securly Aware.
- **$3.54 per student** for Securly Classroom (3-year commitment). **$1.50/student** for a 1-year commitment.
- This offer is valid for any public or private school district in Ohio, regardless if the ITC has purchased Securly. All products below are compatible with Securly Filter.

Securly Auditor is now Securly Aware. Securly Aware allows you to intervene quickly to safeguard students against self-harm, suicide, bullying, and violence.
- Receive real-time alerts of concerning student activities via email, so designated staff can view all alert notifications and activity in their assigned OUs.
- Rely on evidence-based wellness level monitoring to understand and visualize each student's current emotional state — and respond quickly if their level declines.
- Use the resources you're putting towards student wellness effectively.
- Curb cyberbullying and violence with proactive tools.

Through Securly's 24 service, our expert team of Student Safety Analysts provide 24/7 coverage of student email.
- Flagged results are sent to Securly's analysts, who alert school-designated contacts based on the level of risk associated with the flagged student activity. Alerts may consist of email, phone call, or text message.

Through Securly's 24 service, our expert team of Student Safety Analysts provide 24/7 coverage of student searches on common search engines, YouTube, websites visited, and social media activity.
- Securly monitors for cyber bullying, self-harm, depression, and violence
- Flagged results are sent to Securly's analysists, who alert school-designated contacts based on the level of risk associated with the flagged student activity. Alerts may consist of email, phone call, or text message.
